

Orel Yaron

orel.yaron@gmail.com | uultimaa.github.io/meetMe

Senior Frontend Developer specializing in modernizing legacy systems and building scalable Angular applications. Strong experience leading migrations, implementing advanced architectures (Signals, Reactive Forms) and developing real-time systems. Fast learner with a system-level mindset and strong ownership.

Experience

2024–2026 | CAL (via Aman Computers) Senior Frontend Developer

- Led migration of legacy systems from Angular 1 to Angular 21
- Designed and developed complex Reactive & Signal-based forms
- Implemented modern Angular architecture and state management patterns
- Worked with Azure for PR workflows and development lifecycle
- Integrated internal logging and QA systems
- Agile workflow using Jira (sprints, bugs, task tracking)

2018–2024 | NGSoft - Fullstack Developer

- Built scalable frontend systems using Angular (8+) with focus on performance
- Developed real-time applications using WebSockets and Node.js
- Designed REST APIs and worked with Elasticsearch & Couchbase
- Wrote scripts (Python, SQL, Logstash)
- Developed automation tests using Java & Selenium
- Mentored team members and contributed to engineering practices

2017–2018 | eVigilo - Automation Developer

- Developed automation tests for distributed web systems (Java, Selenium)
- Worked with JUnit, XPath, Jira and testing frameworks

Before 2017

“Kzat Aheret” - Digital Print Graphic Designer

“Yoles Signs” - Main Graphic Designer (signs and web)

Education

- Self-taught Web Development (JavaScript, Angular, Node.js)
- .NET Development Course – John Bryce
- Graphic Design Course – John Bryce

Technical Skills

- **Frontend:** Angular (1–21), RxJS, TypeScript, JavaScript, HTML5, CSS3, SASS
- **Architecture:** Signals, Reactive Forms, State Management, Real-time systems
- **Backend & Tools:** C#, Java, Node.js, REST APIs, Elasticsearch, Logstash
- **DevOps & Workflow:** Azure, Jira, Git, Github Actions, Github Pages, CI/CD concepts, Kubernetes, Docker, Cursor, Copilot
- **Testing:** Selenium, Java Automation, UI Testing
- **Databases:** SQL, Mongo, Couchbase, MySQL, PostgreSQL
- **Other cool skills:** Unreal 5+, Photoshop, Illustrator

Languages

- Hebrew – Native
- English – Fluent

Service

2008-2011 | Combat Medic at “601” battalion in the Combat Engineering Corps.

- Had the responsibility of maintaining the battalion's health routine and exercising medics.

Character

- Great people skill, high work ethics, responsible, dedicated and assertive.
